Professional Summary

Frontend developer with 2+ years of experience building scalable web apps using React, Next.js, and TypeScript. Passionate about clean architecture, data visualization, and delivering intuitive user experiences.

Work Experience

Software Developer

Jan 2024 - Present

10times Pvt. Ltd. | Bangalore, India

- Developed web applications using HTML, CSS, JavaScript and TypeScript to create responsive and user-friendly interfaces.
- Implemented front-end functionalities using React.js, including reusable component creation, state management, and event handling.
- Integrated RESTful APIs to fetch and update data, enhancing the application's functionality and user experience.
- Utilized Tailwind CSS and Sass to streamline the styling process and maintain consistency across projects.
- Contributed to live projects, collaborating with cross-functional teams to solve real-world problems and deliver quality solutions.
- Demonstrated proficiency in Next.js, leveraging its features to build efficient and scalable web applications.
- Employed React hooks for state management, improving code readability and facilitating easier debugging.
- Managed project tasks and workflows efficiently using Jira, ensuring clear communication and timely delivery of milestones.

Software Engineer

Feb 2023 - Dec 2023

Webkul Software Pvt. Ltd. | Noida, India

- Gained hands-on experience in web development by building real-world applications with HTML, CSS and JavaScript, React.js and Rest APIs.
- Applied learned concepts to contribute effectively to live projects, addressing real-world problems and delivering high-quality solutions.
- Embraced learning opportunities to master Next.js, showcasing a dedication to continuous skill enhancement and readiness to explore advanced frameworks.

Projects

Whr.ai - Next.js, TypeScript, D3.js, Tanstack, Shadcn, Tailwind, REST APIs - [Demo](#)

- Developed an advanced event intelligence platform that empowers businesses to optimize operations by providing real-time insights, trend analysis, and predictive analytics on upcoming events.
- Engineered a predictive analytics tool that forecasts the likelihood of event recurrence, allowing businesses to anticipate future opportunities and strategically prepare their operations to capitalize on event-driven customer demand.
- Improved user engagement by 25% by integrating dynamic filters and real-time updates

Recofy - Next.js, TypeScript, Tailwind, REST APIs - [Demo](#)

- Developed and implemented a dynamic recommendation system within the event-based platform.
- Personalized business recommendations resulted in increased user interaction and higher retention.

E-Commerce Minimalist - *React.js, Tailwind CSS* - [Demo](#)

- This website features a modern and intuitive design, with easy-to-use navigation and a simple shopping experience that puts the focus on the products.
- Ensured that the website is fully responsive and optimized for mobile devices, providing a consistent experience across all screen sizes and devices.

Education

Bachelor of Technology (B. Tech)

Aug 2019 - June 2023

Computer Science & Engineering

IIMT College of Engineering | Greater Noida, India

Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Zustand, Tailwind CSS, shadcn/ui, Framer Motion, D3.js, Apache Echarts

Backend & DevOps: Node.js, RESTful APIs, Docker, AWS, CI/CD, Vercel

Tools & Platforms: Git, Linux, Jira, Google Analytics

Soft Skills: Communication, Time Management, Adaptability, Problem Solving, Teamwork, Creativity
